

Quick Start Guide

Welcome Guide for HVB Online & Mobile Banking

Requirements

- ✓ You are already an HVB customer or have access to an HVB account
- ✓ You already have the following login credentials:
 - Direct Banking Number and Initial Password
 - You do not yet have login credentials? See: hvb.de/registrierung
 - You already have login credentials but forgot the password (Direct Banking PIN)? We will help you here: hvb.de/hilfe
- ✓ You have chosen the appTAN procedure so you can authorize your transactions via smartphone, e.g. transfers: "HVB appTAN", is part of the HVB Mobile Banking App. Details on the alternative photoTAN procedure can be found on hvb.de/tan
- ✓ You own a compatible smartphone (iOS /Android) with an up-to-date operating system, at least iOS 14 or Android 9.0

Definition of Terms

Direct Banking Nummer

The number is 10 digits long and includes 4 random digits plus your date of birth. You need the Direct Banking Number for HVB Online Banking and for the first-time activation of the HVB Mobile Banking App.

Passwort (Direct Banking PIN)

Your initial password consists of 5 digits and is issued when you set up HVB Online Banking for the first time. During the initial registration, you choose a 6- to 10-digit password yourself (numbers, letters, and special characters). You will need this password (Direct Banking PIN) to log in to HVB Online Banking (computer) or the HVB Mobile Banking App (smartphone).

appTAN procedure / appTAN PIN

When activating the Mobile Banking App, you set a PIN on your smartphone yourself. This "appTAN PIN" is a fixed 6- to 10-digit number (digits only) that you will need to authorize transactions, so please remember it well! The appTAN PIN is used only on the smartphone. This method of transaction authorization is called the "appTAN procedure".
